

## OUR CORPORATE VALUES

### OUR VISION

To be one of three companies which are primarily consulted with its technology and solution in the international infrastructure projects, recognized with its cost-, innovation- and environment-oriented approach and creating added-value in the world market of composite systems.

### OUR MISSION

To put the scarce water resources into service of people with the least loss by contributing the ecology balance of the nature and community life. To create resources by ensuring satisfaction of our shareholders, customers and employees while serving this purpose.

### OUR VALUES

- Honesty
- Constancy
- Modernity
- Team work
- Fidelity
- Respect to knowledge
- Efficiency
